Want to surprise your significant other? Planning the perfect romantic getaway? Going to propose your partner? Whatever be the reason, Portugal is the perfect destination to take your romantic trip a notch higher! Let’s have a look at the 5 one-of-a-kind romantic experiences in Portugal that will sweep you off your feet.

1. Hop On for a Horse-Drawn Carriage Ride Through Pena Park at Sunset

Nothing can be more romantic than a horse-drawn carriage ride! This classic and poetic form of transportation will help you travel back in time, while the rhythmic sound of the hooves hypnotize you and make you fall in love with the beauty around. Pulled by the beautiful Ardennes horses, this 20-minute carriage ride will take you around the lovely green hilltop forests of Parque de Pena (Pena Park), surrounding the magnificent Pena Palace. Soak in the views of this fantasy forest and its lush fern gardens, and let the fragrance of exotic flowers intoxicate you and your partner further. When you reach the highest point of the mountain, you will find Queen Amelia’s favorite seat from where you’d also be able to view the palace. End your day watching the sunset and celebrate love at this magical place!
